143 responses

15. The overall quality of teaching-learning process in your institute is very good

143 responses

16. Give suggestions to improve the overall quality of teaching-learning experience in your institute.

(Samples provided out of 60 responses received)

- Everything is good
- Explanation to be done slowly and steadily in an understandable way
- To bring more books in the library especially for the Honours students.
- As of now the quality of teaching - learning in our college is very smooth yet we the 2nd semester students (CBCS course), we are finding it difficult to find books in our library especially for the Honours students. Thank you
- Some of the teaching use to be in a nutshell, it'll be best if they explain the topics in brief and in detailed information!
- More extra-curricular activities
- It will be better if the teacher understands when we are in problems
- Encourage cooperative learning
- Punctuality encouragement
- It will be great if teachers give materials
- Both teachers and students should be punctual
- To encourage good connections between students and teachers.
- Encourage active learning
- Encourage extracurricular activities and to give life skills which will help students in building both their life & career
- The teachers should make a friendly relationship with the students and also try to encourage them they must also ask questions to the students after explanation is done
- By creating a teacher-student friendly environment during classes to ensure more student participation during class discussions and by the use of ICT tools by more professors.
- Take the students to field trips and have friendly communication with students.
- The teachers can improve overall quality of teaching by just a simple method, that is to build a healthy relationship with the students and interacting with the students frequently, asking the students in what field they are having trouble, and ask them what should be done in order to make them feel and understand things better
- Provide ICT tools to improve learning experience
- 1. Utilise the latest technologies 2. explain with enthusiasm
- Make effort to inculcate life skills and employability skills in the students.
- Teaching outside the book preparation for the future.
- It will be better if the teacher conduct test on every unit after explanation
