(68 responses)

- Needs more teachers especially in Economics Department.
- Participation of both teachers and students in teaching learning process
- So far the teaching quality in our institution is going as expected.
- Teacher must be more strict in the academic session as well as supportive in the co-curricular activities.
- I'm much lucky to be a part of this Institution. I have learnt different kind of skills... Thank you so much..
- The overall performance is well satisfied as far as now.
- If the teacher doesn't miss the class in regular intervals and also if they make use of the audio visual aids then it can improve the quality of teaching learning to the next level.
- Teacher shall give back the assignment to discuss how they have done and Teacher shall discuss the weaknesses of the students.
- It will be much better in learning if we used a projector during class explanation.
- ICT facilities should be put to use often to help the students in learning process
- Give notes on time
- ICT should be taken up in a proper way.
- It will be better if they could make use of the projectors in teaching
- Both Teachers and Students must be on time everyday during class hour
- I'll be much better if they use ICT tools while teaching as sometimes visual explanation helps a lot in learning
- Make use of technology in the class.
- The Teachers must come well versed with their topic and also make sure that the student understands. The usage of ICT should be encouraged.

- If the library is upgraded with sufficient books it will be good for the Students.
- Syllabus must complete on time
- Teachers must complete the syllabus on time.
- We must work hard and give attention to our Teacher.
- They should inculcate teachings with technology
- To complete the syllabus in time.
- Punctuality of the students and teachers
- The teaching staff of Mt. Tiya is well qualified. It's just that if the students could receive enough academic validation which might help the weak students accelerate or improve in their academic field.
- The overall performance is well satisfied as far as now.
- To improve the teaching process in the modern society, the teachers should use the ICT tools as it effects and encourage the students to learn more and new things. Thank you!
- Syllabus must be completed on time
- It will be good if the college can use ICT in teaching.
- Encouragement ... Positive encouragement whether be it excellent or average students. ... This might create a positive impact within the teaching learning process, which may help in improving the whole infrastructure of the Institution.
- It will be better if we use the ICT room and the other audio visual in the classroom
- Teacher shall give back the assignment for the students to discuss how he or she is lacking behind on his or her assignment to discuss about the weaknesses of the students..
- The overall quality of teaching learning experience in our institute is well satisfied.
- In order to improve teaching learning processes in the College, the Teachers and Students should co-operate and make relationship with each other
- They should inculcate teachings with technology
- Need to improve the ICT tools during explanation.

- It will be better for the Students if they can use the projector in teaching
- Utilize the latest technologies
- Encourage cooperative learning
- Ensure your curriculum knowledge
- In order to improve teaching, Teacher should use ICT to make the pupils learn/understand properly
- To encourage learning process and ICT facilities should be used often which will help students in learning quicker.
- Improvement test should be taken before our final exam
- Educational in our institution is well organised and satisfied.
- Good
- Practical classes are also important and should be given importance. Remedial class for the students having backlogs should also be there
- So as to improve the overall quality of teaching learning, the teachers should try to impart their best quality of education to the student's and both the teacher students should have a good relationship with each other.
- 1.For internet assessment, it will be better if we conduct model test instead of class test . 2. Some subject doesn't take paper presentation seriously, so it will be better if paper presentation is taken up effectively. 3. Some subject teacher are very irregular (not all), therefore there is need to have a strong check on the teachers. 4. There are many rules and regulations made by the institution, however action are rarely taken up. So suggesting taking an action on those implementation that are made.
- Active participation. ..
- Sufficient use of ICT tools
- I recommend that the teachers should give their 100% interest teaching the students and give them the best knowledge....

- No complaints everything is good
- It's alright.
- Everything is fine no complaint
- Good and nice
- Timing and regularity of teachers
