16. Give suggestions to improve the overall quality of teaching-learning experience in your institute.

(Samples provided from 182 responses received)

- Empower students to be active learners
- Provide collaboration and socialization opportunities
- I would suggest the use of visual and documented videos for better understanding
- I'm well satisfied with overall quality of teaching-learning experience in our Institute
- Installation of smart class, more books in the library and more practical teaching
- Kindly emphasis more on ICT and other extracurricular activities. More focus on Games and Sports too.
- To introduce more activities in the college
- Create a welcoming environment and a friendly relationship between students and teachers
- Use of instructional technology
- The competitive spirit among the students is very low so it should be encourage and need to be improved
- It will be great if there were more functions and programs so that every student will get opportunity to perform accordingly
- Power point teaching must be used for the betterment of the students
- To have more extra curriculum activities

- Interaction between students and teachers should be encouraged to improve the overall quality of teaching-learning
- Improvement in technology teaching
- I would suggest the use of digital illustration and images in explaining the subject for better visualization and understanding
- A friendly relationship and a good communication between the student and the teacher. Thank you.
- To improve the overall quality of teaching experience in our institute, ICT tools are needed to use for better understanding
- In order to improve overall quality of teaching learning experience in our institution the students must take the opportunity given to them and study with interest while the lecturers must also try to understand more about the students based on their individual differences
- More interaction between the students and teachers could greatly enhance the communication skills of the students. And conversation in English between the students in the college be strictly implemented
- 1. Advise students for their career and academic opportunities
  2. Share your personal experience to let them understand the difficulty in real life
  3. Share notes after your lecture
  4. Use technology to make the class interactive like use of videos etc.
- Connect to students individually
- In order to improve the overall quality of teaching -learning experience in our institution first there must be a friendly relationship among teachers and students, respect each other, cooperate with each other and the teachers must also ask questions to the students after explanation is done.
- 1. To encourage social learning
  2. Break learning into chunks
  3. Make learning visual
- I'm well satisfied with overall quality of teaching-learning experience in our Institute
